

Professor Purple's *Wonder World*

Three original shows built on WONDER · For schools, libraries, camps, museums & YMCAs

A performer who engages, entertains, and educates.

Jen Joy (Professor Purple) delivers assembly, workshop, and residency programs for K-5 audiences and beyond. Each program is built around the three questions of a wondering mind — WHY, HOW, and WHAT — and modeled on the same authoritative SEL-in-action leadership currently in use with Mad Science and Crayola Academy.

THE THREE SHOWS

● YoYo Wonder

WHAT — Skill & Persistence

A live demonstration of grit and growth mindset. Kids see world-class yo-yo tricks and unpack the mindset behind them. Perfect for character education, PE, and goal-setting units.

● Science of Wonder

HOW — Discovery & STEAM

Big, safe, jaw-dropping science demonstrations. Kids predict, observe, and reason through NGSS-aligned concepts they'll actually retell at dinner.

● Magic of Wonder

WHY — Wonder Itself

A family magic show that reboots curiosity. Perfect for kickoffs, family nights, and library Summer Reading closers.

FORMATS & STARTING PRICES

Program	Length	Starting price
School assembly (K-5)	45 min	from \$500
Library / family show	45 min	from \$350
